

KOTOR Campaign Guide Web Enhancement 3

Elbee (T1-LB)

The new *Knights of the Old Republic Campaign Guide* is crammed with material that Gamemasters and players can use to create an epic *Star Wars* roleplaying game experience during one of the most dangerous periods of galactic history. In fact, the book is so full that we had to leave out a few things that just wouldn't fit. But never fear -- we're bringing those game options to you as a series of exclusive web enhancements! Today's installment: T1-LB, a droid with a big secret!

Elbee (T1-LB)

Elbee, otherwise known as T1-LB, is an old bulk-loading droid with a lot of light-years on it. Like the majority of its line, Elbee labors in obscurity until it witnesses the First WatchCircle plotting to murder their Padawans. Lucien Draay uses the Force to hurl the droid over a cliff, but Elbee survives. After Zayne Carrick recovers the droid, Camper repairs it, upgrading its brain and giving it a speech processor. The droid does not adjust well and often refuses to move, likely in fear of repeating its near destruction at the cliff. Jarel and Zayne have discovered that Elbee is best motivated by reverse psychology and references to Lucien Draay.
